-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1, 2, 7-12, 14 and 15 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Brindopke.

Brindopke discloses polyisocyanate resins blocked with C8 malonate esters (col. 3, line 67). In example 1, he shows a blocked resin having a molecular weight of about 800, and he discloses reacting these resins with polyol (col. 8, line 21) at the ratio of the claims (see col. 15, production of the coatings). When a reference teaches a product that appears to be the same as the product set forth in a product-by-process claim but made by a different process, the burden of showing a difference is shifted to the applicant (in re Marosi, 218 USPQ 289).

4. Claims 1-3 and 7-15 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Poth.

See Paper No. 5, paragraph 6.

5. Applicant's arguments filed 4-7-03 have been fully considered but they are not persuasive. The applicants argue that neither Brindopke or Poth show the use of

Art Unit: 1711

alcohols. The applicant's invention is directed to a product (C) made by transesterifying the malonates of the blocked polyisocyanate (A). Both references show the same product (C) without going through the extra steps used by the applicants. Bridopke and Poth use malonate blocking agents that are esterified with C8 alkyl groups to begin with, with no need to transesterify to replace lower alkyl groups, such as ethyl. The blocked polyisocyanates of Brindopke and Poth are the same as applicant's claimed polyisocyanate (C) without the need for transesterifying with an alcohol. The applicant's invention is directed to a product, not a process. The references show the same product.

6. Claim 4 is objected to for depending on rejected claims.

**7. THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rachel F. Gorr whose telephone number is 703-308-
